

Application Developer – Facility Management Software (m/f/d)

at our locations in **Heidelberg, Berlin, Dresden, Schwerin, Telfs, Neufelden, and Vienna**

Full-time, permanent

Are you a digitalization expert in the real estate sector and want to help shape the building operations of the future?

The pit Group is the leading operating system for smart and sustainable building management. Do you want to develop the digital twin of the future together with an innovative team? Then the pit Group is the right place for you.

We are looking for new team members who, with passion and creativity, will further develop our products and approach projects with the same dedication as we do.

Your Responsibilities

- You are responsible for customizing our software solution and databases
- You contribute to projects for well-known clients
- You are responsible for customer consulting and support
- You independently conduct training sessions for customers and employees
- You document your technical developments to meet our quality standards

Your Profile

- You have completed vocational training in IT or possess a comparable qualification
- You have strong IT skills in modern, object-oriented programming languages (**C, C++, C#, Java**)
- Ideally, you have experience working with databases (**MS SQL, Oracle**)
- You are a communicative team player
- You enjoy taking on challenges
- Conceptual and analytical thinking are among your strengths
- You work independently, in a structured manner, and solution-oriented
- You have good German language skills, both written and spoken (**C1**)

Who we are

The **pit Group**, consisting of **pit GmbH** (formerly Ing. Günter Grüner GmbH) and **pit-cup GmbH**, is one of the three largest providers in the D-A-CH region for digital building twins and sustainable building management. With over 30 years of experience, more than 2,000 renowned clients across various industries, and over one million users worldwide, we rely on innovative software solutions such as **pitFM** to enable resource-efficient and legally compliant building operations. Our group employs **120 experts** across **7 locations** in **Germany and Austria**.

Working with us means driving the digitalization of building operations and shaping a more sustainable future. We operate across teams and locations in a trusting, transparent, and fair environment.
